Minority Leader ROBO: INFLATION
November 1959

Dear ...:

I was happy indeed to have your expression of interest following the President's appeal for public support in the unceasing fight against inflation.

I take great -- and I hope pardonable -- pride in the fact that without fear or favor I supported the President without reservation during the First Session of the 86th Congress in helping to stem the inflationary tide by achieving a balanced budget, reducing expenditures, and resisting the many proposals which the Congress enacted, all of which were commitments for further spending either now or in later years. You can count on me to be on the firing line.

Sincerely,

Everett McKinley Dirksen
