subject to immediate change

Chicago and North Western Telegraphers
strike

Sept. 5, 1962

Dear :

I note that Secretary Goldberg has been meeting with the parties in interest concerning the Chicago and North Western Telegraphers strike and we too have expressed our interest in various quarters.

Among other things I suggested to a representative of the company who came to see me that if both parties were willing to discuss the problem with all of the senators from the nine states which the North Western serves, I would be glad to assist in convening such a group as quickly as possible.

I know full well the loss and inconvenience occasioned by this strike and will be more than glad to help in every possible way.

Sincerely,

Everett McKinley Dirksen

Chicago and North Western Railway Strike

September 10, 1962

Dear :

Thank you for your recent communication concerning the telegraphers strike against the Chicago and North Western Railway.

I offered among other things to bring together all the Senators from the nine states which are served by the Chicago and North Western in the hope that something could be done to avert a protracted suspension of operations.

I know full well the loss and inconvenience occasioned by this strike and wish to assure you I stand ready to assist in every possible and reasonable way.

Sincerely,

Everett McKinley Dirksen
