McClellan Bill  
S. 2573

May 9, 1962

Dear :

The McClellan Bill, Senate 2573, referred to in your recent communication is still in committee and I am of the opinion that a very substantial amount of testimony will be taken in the subcommittee and, perhaps, even in the full committee before action is taken, because it is a proposal which is far-reaching and important.

I can assure you of my awareness of the problem which it seeks to reach and it will have very good attention.

Sincerely,

Everett McKinley Dirksen
