WORK MEASUREMENT SYSTEM

June 11, 1963

Dear -----:

I can certainly appreciate your interest in pending legislation which relates to the so-called work measurement system.

The Subcommittee on Postal Operations of the House Committee on Post Office and Civil Service has been conducting an investigation and inquiry into the matter, however, no action has been taken on the many bills pending before that committee which relate to the problem.

Four bills are also pending before the Senate Committee on Post Office and Civil Service, but no action has been scheduled as yet.

Let me assure you that any proposal of this type which may be presented on the Senate Floor will have my best attention and I will be mindful of your views during the course of debate.

Sincerely,

Everett McKinley Dirksen
