DIVIDENDS ROBO

February 14, 1964

Dear -----:

We made an effort in the Senate Finance Committee and again on the Senate Floor to retain the present dividend tax credit but were narrowly defeated in both instances.

The Republicans in the Senate voted unanimously to retain the credit but we were unable to gather enough Democratic support to get the job done. I was unable to be present during the debate as a result of being temporarily hospitalized with an ulcer flare-up, however, the Congressional Record does indicate my vote in favor of retaining the tax credit.

I do appreciate your interest.

Sincerely,

Everett McKinley Dirksen
