Dear -----:

I appreciate receiving your views relating to S. 2568 which was introduced by Senator Hart.

For many reasons, such as those suggested in your letter, I have not been favorably disposed to this bill and will continue to give it very close and careful attention when hearings begin again in early Spring. Your views will be made known to the Committee at that time.

Sincerely,

EMD

S. 985, Senator Hart's Bill

Cut on the Dura Mach 10  
April 1, 1966

Dear :

I appreciate receiving your recent letter setting forth your views regarding Senator Hart's proposed bill, S. 985.

The bill is now pending in the Commerce Committee for action and is expected to be reported out in the not too distant future. The matter has been under close study by both the Senate and the Commerce Department and, at this time, it is unknown exactly what the form will be when it is reported on to the Senate Calendar. You may be assured, however, that it will continue to have my close study as I have not been favorably disposed to it up to this point.

Sincerely,

Everett McKinley Dirksen
