

## United States Senate

ISRAEL ROBO

June 1, 1967

Dear :

I have a full appreciation of the critical situation which obtains in the Middle East and will be diligent in pursuing this matter in the fervent hope that it will not eventuate in conflict and threaten not only people in that area, but elsewhere in the world and especially so at a time when we have some real problems in Viet Nam.

I expect to confer regularly with officials of the State Department and with the President who are charged with the conduct of our foreign policy.

Sincerely,

Everett McKinley Dirksen
