

United States Senate

Crime & Firearms Rbbo

May 14, 1968

Dear

:

The United States Senate is now considering the omnibus crime control bill. I have participated as ranking minority member in the preparation and drafting of this important and comprehensive bill. I expect to work hard to secure necessary amendments to strengthen it so America may feel adequately protected in her homes and neighborhoods.

The measure will assist State and local governments in reducing incidence of crime and will assist in the effectiveness of law enforcement generally. I am pleased to have your views on this important matter which will continue to have my closest and most careful attention.

Sincerely,

Everett McKinley Dirksen
