

United States Senate

Iron and Steel Robo

May 6, 1968

Dear :

Thank you for your letter with respect to S. 2537 to provide for orderly trade in iron and steel mill products. I am a co-sponsor of this measure.

The Committee on Finance held some hearings on this general subject last fall but no further action has been taken thus far, and nothing is scheduled at the moment.

I am glad to have your comment and observations.

Sincerely,

Everett McKinley Dirksen

United States Senate

IRON AND STEEL-ROBO

June 6, 1968

Dear :

Thank you for your letter with respect to S.2537 to provide for orderly trade in iron and steel mill products. I am a co-sponsor of this measure.

The Ways and Means Committee of the House of Representatives began public hearings on June 4, 1968 on the general subject of trade and tariffs. The Finance Committee held hearings last year and I anticipate that they will resume their consideration of our entire foreign trade policy soon.

I am glad to have your comments and observations on this important matter.

Sincerely,

Everett McKinley Dirksen

IRON AND STEEL-ROBO

September 12, 1968

Dear :

Thank you for your letter with respect to S.2537 to provide for orderly trade in iron and steel mill products. I am a co-sponsor of this measure.

The Ways and Means Committee of the House of Representatives began public hearings on June 4, 1968 on the general subject of trade and tariffs. The Finance Committee held hearings last year and I anticipate that they will resume their consideration of our entire foreign trade policy soon.

The Committee has already approved a Resolution directing the Executive Branch to negotiate agreements limiting imports of iron and steel products, and did so with the clear understanding that unless the agreements were made, the Committee would move next year to report quota legislation. The result is that the Executive Branch has approximately five months in which to act-- otherwise Congress will.

I am glad to have your comments and observations on this important matter.

Sincerely,

Everett McKinley Dirksen
