

## United States Senate

PAY INCREASE ROBO

April 15, 1968

Dear :

An amendment was introduced which, had it been approved, would have postponed the next scheduled pay increase. However, the sponsor of this amendment did not call it up for consideration so the Senate took no action on this particular proposal. However, there is some indication that the House of Representatives, in another bill, will consider the possibility of postponing these increases.

Sincerely,

Everett McKinley Dirksen
