

## United States Senate

Redwood Park Robo

February 8, 1968

Dear :

This will acknowledge receipt of your communication of recent date with reference to Redwood Park legislation.

S. 2515, the Senate version of this legislation is pending in the House Interior Committee along with thirty or so similar bills. These bills vary essentially in acreage and location.

Hearings have been held here in Washington on this legislation and the Committee is now scheduling field hearings in California before more meetings are held locally. These hearings are scheduled for three days during the Easter recess, April 16, 17 and 18.

Be assured I shall keep your views in mind as we move along in this session of Congress.

Sincerely,

Everett McKinley Dirksen
