Dear ..:

I appreciate your recent communication in support of Senate Joint Resolution 1 introduced by Senator Bricker and co-sponsored by sixty-three other senators, including myself.

I am deeply interested in this matter because I do believe there is cause for alarm. The international activities of so many agencies on which the United States has representation can jeopardize the domestic rights of our people as guaranteed in the Constitution and it is the hope of the committee that we can contrive a resolution that will not destroy flexibility of executive action and at the same time make certain that the inalienable rights of our people at home will not be impaired or destroyed. I am happy to note your interest.

Sincerely,

Everett McKinley Dirksen
