June 23, 1953

Dear ..:

Although the amendment I proposed and which was adopted by the Appropriations Committee of the Senate to the effect that contributions to the United Nations should be cut off if and when an aggressor nation was voted into the U.N. body, was not finally adopted by the Senate, it did have the effect of generating the alternative proposal which was passed by the Senate by a vote of 76 to 0 and which had the concurrence of the President.

This definitely establishes the record and I am sure that this action will find favor with people everywhere in the country. I am grateful for your expression of interest.

Sincerely,

Everett McKinley Dirksen
