May 5, 1953

Dear ..:

I appreciate your recent communication.

Offhand it does appear to me that Senate 848, now pending in the Judiciary Committee, simply intrudes government further and further into private business, and I am generally opposed to legislation of this kind. I can assure you that it is having attention.

Sincerely,

Everett McKinley Dirksen

... 

Dear ..., 

During the last session of the Senate I participated in the hearings which were held on Senate 848 and which is presently on the Senate Calendar. I have endeavored to explore every aspect of the problem which is involved and the remedy which is proposed in the form of Senate 848. I shall give this measure most careful attention, if and when it should be called up for action when the new session begins in January.

With every good wish,

Everett McKinley Dirksen
