THANKS (reapportionment Legis)

March 22, 1965

Dear:

Senate Joint Resolution 2, which I introduced on January 6th, as a constitutional amendment, is designed to give the people of each state the choice of having both houses of their state legislature apportioned on the basis of population only or of apportioning one house on the basis of pertinent factors within each state. The proposal has thirty-eight cosponsors and I fully intend to push for rapid consideration during the present session.

I appreciate your thoughtfulness in making your views on this measure available to me.

With every good wish,

Everett McKinley Dirksen
