Dear:

I appreciate receiving your comments urging my support for legislation which would establish Federal controls over the transmittal of obscene literature and other materials through the mails.

H.R. 10331 and its companion bill in the Senate, S. 3027, would require mailing list brokers to register with the Postmaster General. These proposals are pending before the House and Senate Post Office Committees respectively, however, neither has been reported from committee as yet.

S. 309, of which I am a co-sponsor, would establish a Commission on Noxious and Obscene Matters and Materials and this is before the Senate Committee on Government Operations.

You can be sure that this legislation is having my most careful attention and I will have your interest in mind during the course of our deliberations.

Sincerely,

Everett McKinley Dirksen
