Dear ...:

I have noted your interest in S. 359 which was sponsored by Senator Prouty and is now pending before the Finance Committee of the Senate. This measure was before the Finance Committee last year and there were several of us on the Committee who felt this was a problem that needed attention. However, this proposed legislation was opposed by the Administration when it was offered as an amendment to the general Social Security Bill.

You may be certain that this will be reconsidered this year if an appropriate bill is forwarded from the House of Representatives.

Sincerely,

Everett McKinley Dirksen
