February 7, 1967

Dear :

I appreciate your interest in the so-called Military Museum Park, however, let me emphasize that this project is only in the conversation stage and as yet, no funds have been authorized for its construction.

It would appear that in our efforts to cut back on federal spending to help ease the difficulty facing the economy as a result of the situation in Viet Nam, this might be one project which could be postponed indefinitely.

In any event, it will have good attention and I will have your interest in mind if such a proposal is presented during the current session of Congress.

Sincerely,

Everett McKinley Dirksen
