March 18, 1967

Dear :

The Administration's request that we reinstate the investment tax credit has my complete support. The investment tax credit was, in my judgment, one of the better measures in the tax field that the Congress has enacted in some time. I was opposed to the suspension and will do everything I can to see that legislation for the reinstatement is moved in as rapid a fashion as possible.

Sincerely,

Everett McKinley Dirksen

Dear :

The Senate will consider restoration of the investment credit this week. As you know the Administration was able to persuade a sufficient number of the members of the Finance Committee to delete the provisions that had been inserted in the legislation by the House of Representatives. I am not certain as to what will happen on the Floor but perhaps in Conference we can make a better bill than what was reported by the Committee.

Sincerely,

Everett McKinley Dirksen
