March 12, 1963

Dear:

In response to your communication regarding the Patoka Service Center, application was first made on February 2, 1968 and was returned to your City for further information. It was resubmitted to the Regional Office of the Department of Housing and Urban Development in Chicago on February 23.

There has not been sufficient time to make an evaluation of the application.

You may be sure that if the Chicago Regional Office approves the project and it is sent to Washington for final determination, I will certainly do all I can from this end.

Sincerely,

Everett McKinley Dirksen
