January 2, 1968

Dear:

A few months ago the Senate Internal Security Subcommittee circulated a questionnaire among the Law School faculties, members of the Bar Associations, recognized Constitutional Law Attorneys, etc., requesting their comments and suggestions concerning certain revisions deemed necessary to strengthen the Subversive Activities Control Act.

In view of the recent Supreme Court decision concerning the Constitutional rights of members of the Communist Party to work in national defense plants, this point probably will be embodied in a supplemental questionnaire. In any event I am sure this problem will be re-examined by the Senate Internal Security Subcommittee for the purpose of recommending the enactment of corrective legislation.

Sincerely,

Everett McKinley Dirksen
