May 2, 1969

Dear:

Reference is made to your recent communication concerning S. 1532 introduced by Senator Gurney to amend the National Labor Relations Act to prohibit labor unions from boycotting prefabricated building innovations specified by architects and engineers.

I am of the opinion that in due course the President will have a message on this and other matters in the labor field, and that the message will be accompanied by appropriate legislative proposals. I shall, however, give careful and continuous attention to the proposed legislation submitted by Senator Gurney concerning the use of prefabricated products.

Sincerely,

Everett McKinley Dirksen
